

103567-HS2018-0: Introduction to R programming and analyses

Homework 1

DEADLINE: Monday Sept 23

Dear students,

The homework can be found on dropbox, on the folder Homework:

<https://www.dropbox.com/sh/m24bld7g7nh3bii/AABeMWlUcrIYyGIFOp1EyF-Ma?dl=0>

Please solve the exercises in the folder Homework1, file: "homeworkWeek1.r".

You will also need to download the following files to solve the exercises:

- Student2003.txt
- Student2017.txt

You need to send the R script with your solutions to your assigned Teaching Assistant (TA).

Check your assigned TA in the file "TAforEachStudent.xlsx".

In this file you will find the e-mail address of your assigned TA.

You can contact your assigned TA if you have any questions about the exercise until 16h00 of Friday 20th September.

#####

The SUBJECT of the e-mail you send with the homework should be: R course 2019 homework 1

The Rscript should be named [YourName]_Rcourse_homework1.r

Replace [YourName] by your first and last name.

#####

Best wishes,

Vitor Sousa
